Battle for cheaper petrol/diesel - your signature urgently needed on new Government Petition site:

Dear FairFuelUK Supporter,

The battle for cheaper petrol/diesel prices is at a crucial stage. 10 days ago, the Government made a new on-line facility available to get issues that concern the public aired in the House of Commons. **Consequently, If 100,000 citizens sign our petition on the Government's new ePetition site then the issue of cheaper petrol/diesel will be debated in Parliament.**

This morning, our petition on the Government site has reached 36,000 signatures. We need a further 64,000. Our own FairFuelUK petition at www.fairfueluk.com has 200,000. However, these campaign supporters unfortunately do not count towards the ePetition on the new Government site. **It is absolutely vital that we get to 100,000 within a few weeks.** The only petition ahead of us is the one relating to the recent riots.

If you have already signed our petition on the Government ePetition site – thank you! Please try to encourage other friends, colleagues and contacts to do the same by forwarding this email.

If you haven't signed, please do so NOW at <http://bit.ly/FFUK-Gov> . Failure to hit 100,000 will set the case for lower taxes on fuel back years.

Please remember, every signature really counts. It really does!

Very kind regards,

The FairFuelUK team

PS: If you use Twitter, please follow us at www.twitter.com/FairFuelUK . The @FairFuelUK account has over 100 MPs and Politicians already following our campaign for lower fuel prices. This means that your tweets will be seen by these decision makers if you follow us.

PPS: If you have any problems signing up to the Government's ePetition website, please go to www.fairfueluk.com/epetitionproblems.html

Good news :

Hi Ian, West London Harley Riders have just held our rally over the past weekend and we want to donate some money to MAG. Any chance you or someone else from MAG could meet up with us so we can donate a cheque for £500 and get some photos for our website. Let me know when and where - maybe the Ace Café - and we can get it sorted

Cheers
